HOOVER TRAILS

Hoover Trails are for exploring new and different parts of Hoover. The trails vary in length and terrain. Look around you and see new and unusual things as you walk.

Remember, trails are not like camp "roads". They frequently have rocks, fallen trees, and etc. on them. This adds to your Fun and Adventure. The first four trails described below (Teare Drop, Explorer, Nature Trail and Hilltop) are blazed with 2" by 4" plastic markers. The Night Trail is blazed in reflective red plastic markers. The beginning and end of each trail is marked by three blazes placed vertically. A single blaze shows that the trail goes generally straight ahead. The trail bends, where two blazes are placed vertically, but not always sharply. Do not look straight ahead for the next one - look left or right.

There are trails that have been made by the deer and bear on their way to their water supply. Some of these trails intersect out blazed trails. Do not assume that a well-worn path is your trail; always look for the blazes (the plastic markers).

TEARE DROP (blazed in yellow) 20 min one-way.

This trail is so named because it is on property once owned by Bud Teare, but tradition claims it is so named because of the girls who cry as they hike back up the trail. The trail begins at the program shelter in Hickory Hill. The trail goes down hill and provides a view of our lakeside property from a ridge. This trail joins the mail road and is often called the "short cut" to the Mill Pond.

EXPLORER TRAIL (blazed in red) 30-50 min. both ways

The most adventurous trail of all begins opposite Valhalla, continues through Tall Timber, bends to the left. It then heads right, up and down several small hills. Toward the end you will can walk the trail the other way beginning at Townley Hall.

HOOVER-NATURE TRAIL (blazed in blue)

This trail is intended to introduce you to the natural environments of Hoover. Trail guides and nature books are located in all facilities. This trail can take from ½ hour to all day long, depending upon your interest. This hike can begin at any spot on the trail (use your trail guide to locate the spot nearest to you).

HILLTOP TRAIL (blazed in white) 10-15 min one way

To start this trail, you must first start off on the Teare Drop Trail in Hickory Hill, follow the yellow markers for a short distance, then look for three white markers on a tree marking the beginning of Hilltop Trail. This trail leads you up a gradual incline to the top of a small hill. At the top there is a fire circle and a grassy area to conduct activities.

NIGHT HIKE - FLASHLIGHT TRAIL (blazed in orange plastic markers) 20 min

The trail begins on the north side of the large sports field and returns you close to the spot.
